

# Energy performance certificate (EPC)

4a Dunluce Avenue PORTRUSH BT56 8DN	Energy rating <b>G</b>	Valid until: <b>15 August 2032</b>  Certificate number: <b>2887-2126-1415-1813-8183</b>
---	---------------------------	---

Property type	Top-floor flat
Total floor area	71 square metres

## Energy rating and score

This property's energy rating is G. It has the potential to be E.

[See how to improve this property's energy efficiency.](#)

Score	Energy rating	Current	Potential
92+	<b>A</b>		
81-91	<b>B</b>		
69-80	<b>C</b>		
55-68	<b>D</b>		
39-54	<b>E</b>		47 E
21-38	<b>F</b>		
1-20	<b>G</b>	20 G	

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

- the average energy rating is D
- the average energy score is 60

## Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Granite or whinstone, as built, no insulation (assumed)	Very poor
Roof	Roof room(s), no insulation (assumed)	Very poor
Window	Fully double glazed	Average
Main heating	Electric storage heaters	Average
Main heating	Room heaters, electric	Very poor
Main heating control	Manual charge control	Poor
Main heating control	Appliance thermostats	Good
Hot water	Electric immersion, off-peak	Average
Lighting	Low energy lighting in 11% of fixed outlets	Poor
Floor	(other premises below)	N/A
Secondary heating	Portable electric heaters (assumed)	N/A

## Primary energy use

The primary energy use for this property per year is 706 kilowatt hours per square metre (kWh/m<sup>2</sup>).

► [About primary energy use](#)

## How this affects your energy bills

An average household would need to spend **£2,825 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,155 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2022** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

## Impact on the environment

This property's environmental impact rating is F. It has the potential to be E.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO<sub>2</sub>) they produce each year.

## Carbon emissions

<b>An average household produces</b>	6 tonnes of CO <sub>2</sub>
<b>This property produces</b>	8.5 tonnes of CO <sub>2</sub>
<b>This property's potential production</b>	5.2 tonnes of CO <sub>2</sub>

You could improve this property's CO<sub>2</sub> emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

# Changes you could make

► [Do I need to follow these steps in order?](#)

## Step 1: Low energy lighting

Typical installation cost	£40
Typical yearly saving	£41
Potential rating after completing step 1	20 G

## Step 2: Room-in-roof insulation

Typical installation cost	£1,500 - £2,700
Typical yearly saving	£902
Potential rating after completing steps 1 and 2	41 E

## Step 3: High heat retention storage heaters

Typical installation cost	£2,000 - £3,000
Typical yearly saving	£212
Potential rating after completing steps 1 to 3	47 E

## Step 4: Internal or external wall insulation

Typical installation cost	£4,000 - £14,000
Typical yearly saving	£427
Potential rating after completing steps 1 to 4	61 D

## Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

# Who to contact about this certificate

## Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Ross Lindsay
Telephone	07935489951

Email

[ross@emberenergyni.co.uk](mailto:ross@emberenergyni.co.uk)

## Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme

ECMK

Assessor's ID

ECMK302153

Telephone

0333 123 1418

Email

[info@ecmk.co.uk](mailto:info@ecmk.co.uk)

## About this assessment

Assessor's declaration

No related party

Date of assessment

12 August 2022

Date of certificate

16 August 2022

Type of assessment
