35-39 Royal Avenue,
Belfast, BT1 1FD

LOCATION

Belfast is the commercial, administrative, and cultural capital of Northern Ireland and is the second largest City on the island of Ireland outside of Dublin. The city benefits from an estimated shopping catchment of 1 million within a 20-minute drive-time of the city.

Belfast has an excellent infrastructure network and is well connected to the rest of Ireland and to mainland UK. George Best City Airport is located approximately 4 miles (6 Km) from the city centre with Belfast international Airport located approximately 23 miles (37 Km) north-west.

The property occupies a prominent location within Belfast City Centre fronting onto Royal Avenue at its junction with Rosemary Street. The property is positioned diagonally opposite one of Belfast's main shopping centres, Castle Court and Primark's flagship store which provides 88,000 sq ft of retail space.

In addition, the new Ulster University is in close proximity, and accommodates 15,000 students and staff, providing significant passing footfall. Belfast Stories will be a new public space located at the top of Royal Avenue, within a two-minute walk of the property. The landmark development, due to open in 2029, will create a major tourism anchor right in the city centre.

Belfast, BT1 1FD

DESCRIPTION

Formerly known as Royal Chambers, the subject property comprises a substantial four storey Grade B2 listed building, designed by Young & McKenzie and constructed in 1882.

We are instructed to lease the ground and first floors within the building, providing prime retailing accommodation across both levels and benefitting from a highly visible double shop frontage. The premises was previously occupied by national footwear retailer Schuh and the former tenant's fit-out remains in place, with tiled flooring, air conditioning and a mixture of lighting.

The configuration and size of property makes it suitable for a variety of retail and commercial uses, subject to any required statutory planning consents.

ACCOMMODATION

We calculate the approximate net internal areas to be as follows:
