AMENDED 12th MAY 2005

<td>New member creation</td> <td> <td>Print member information</td> </td>	New member creation	<td>Print member information</td>	Print member information
<td>Add new member</td> <td> <td>Edit member information</td> </td>	Add new member	<td>Edit member information</td>	Edit member information
<td>Find existing member</td> <td> <td>Delete member</td> </td>	Find existing member	<td>Delete member</td>	Delete member
<td>List all members</td> <td> <td>Export member list</td> </td>	List all members	<td>Export member list</td>	Export member list
<td>Import member list</td> <td> <td>Backup member data</td> </td>	Import member list	<td>Backup member data</td>	Backup member data
<td>Transfer member to another group</td> <td> <td>Reassign member to another role</td> </td>	Transfer member to another group	<td>Reassign member to another role</td>	Reassign member to another role
<td>Assign member to a task</td> <td> <td>Unassign member from a task</td> </td>	Assign member to a task	<td>Unassign member from a task</td>	Unassign member from a task
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
<td>Reactivate suspended member</td> <td> <td>Archive member information</td> </td>	Reactivate suspended member	<td>Archive member information</td>	Archive member information
<td>Merge two members</td> <td> <td>Split a member into two</td> </td>	Merge two members	<td>Split a member into two</td>	Split a member into two
<td>Duplicate member information</td> <td> <td>Reset member password</td> </td>	Duplicate member information	<td>Reset member password</td>	Reset member password
<td>Lock member account</td> <td> <td>Unlock member account</td> </td>	Lock member account	<td>Unlock member account</td>	Unlock member account
<td>Deactivate member</td> <td> <td>Reactivate member</td> </td>	Deactivate member	<td>Reactivate member</td>	Reactivate member
<td>Delete member</td> <td> <td>Recover deleted member</td> </td>	Delete member	<td>Recover deleted member</td>	Recover deleted member
<td>Export member data</td> <td> <td>Import member data</td> </td>	Export member data	<td>Import member data</td>	Import member data
<td>Backup member data</td> <td> <td>Restore member data</td> </td>	Backup member data	<td>Restore member data</td>	Restore member data
<td>Archive member data</td> <td> <td>Unarchive member data</td> </td>	Archive member data	<td>Unarchive member data</td>	Unarchive member data
<td>Transfer member to another system</td> <td> <td>Reassign member to another system</td> </td>	Transfer member to another system	<td>Reassign member to another system</td>	Reassign member to another system
<td>Assign member to a project</td> <td> <td>Unassign member from a project</td> </td>	Assign member to a project	<td>Unassign member from a project</td>	Unassign member from a project
<td>Cancel member assignment</td> <td> <td>Suspend member</td> </td>	Cancel member assignment	<td>Suspend member</td>	Suspend member
