

Energy performance certificate (EPC)

21 Lisnaragh Road Dunamanagh STRABANE BT82 0QL	Energy rating F	Valid until: 12 September 2034
		Certificate number: 3734-6621-7400-0345-1202

Property type	Mid-terrace house
Total floor area	102 square metres

Energy rating and score

This property's energy rating is F. It has the potential to be E.

[See how to improve this property's energy efficiency \(https://find-energy-certificate.service.gov.uk/energy-certificate/3734-6621-7400-0345-1202#recommendations\).](https://find-energy-certificate.service.gov.uk/energy-certificate/3734-6621-7400-0345-1202#recommendations)

Score	Energy rating	Current	Potential
92+	A		
81-91	B		
69-80	C		
55-68	D		
39-54	E		50 E
21-38	F	28 F	
1-20	G		

The graph shows this property's current and potential energy rating.

Properties get a rating from **A (best)** to **G (worst)** and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Granite or whinstone, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, partial insulation (assumed)	Average
Roof	Pitched, 100 mm loft insulation	Average
Roof	Pitched, limited insulation (assumed)	Poor
Window	Single glazed	Very poor
Main heating	Boiler and radiators, oil	Average
Main heating control	Programmer, no room thermostat	Very poor
Hot water	From main system, no cylinder thermostat	Very poor
Lighting	No low energy lighting	Very poor
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, coal	N/A

Primary energy use

The primary energy use for this property per year is 410 kilowatt hours per square metre (kWh/m2).

► [About primary energy use](#)

Additional information

Additional information about this property:

- Cavity fill is recommended
- Stone walls present, not insulated

How this affects your energy bills

An average household would need to spend **£2,884 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £947 per year** if you complete the suggested steps for improving this property’s energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Impact on the environment

This property’s environmental impact rating is F. It has the potential to be F.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces	6 tonnes of CO2
This property produces	12.0 tonnes of CO2
This property’s potential production	8.0 tonnes of CO2

You could improve this property’s CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

► [Do I need to follow these steps in order?](#)

Step 1: Cavity wall insulation

Typical installation cost £500 - £1,500

Typical yearly saving £80

Potential rating after completing step 1

29 F

Step 2: Hot water cylinder insulation

Insulate hot water cylinder with 80 mm jacket

Typical installation cost £15 - £30

Typical yearly saving £229

Potential rating after completing steps 1 and 2

35 F

Step 3: Low energy lighting

Typical installation cost £40

Typical yearly saving £99

Potential rating after completing steps 1 to 3

36 F

Step 4: Heating controls (room thermostat and TRVs)

Typical installation cost £350 - £450

Typical yearly saving £255

Potential rating after completing steps 1 to 4

42 E

Step 5: Flat roof or sloping ceiling insulation

Typical installation cost £850 - £1,500

Typical yearly saving £57

Potential rating after completing steps 1 to 5

43 E

Step 6: Replace boiler with new condensing boiler

Typical installation cost £2,200 - £3,000

Typical yearly saving**£228****Potential rating after completing steps 1 to 6****50 E**

Step 7: Floor insulation (solid floor)

Typical installation cost**£4,000 - £6,000****Typical yearly saving****£92****Potential rating after completing steps 1 to 7****53 E**

Step 8: Solar water heating

Typical installation cost**£4,000 - £6,000****Typical yearly saving****£67****Potential rating after completing steps 1 to 8****55 D**

Step 9: Double glazed windows

Replace single glazed windows with low-E double glazed windows

Typical installation cost**£3,300 - £6,500****Typical yearly saving****£164****Potential rating after completing steps 1 to 9****59 D**

Step 10: Internal or external wall insulation

Typical installation cost**£4,000 - £14,000****Typical yearly saving****£475****Potential rating after completing steps 1 to 10****72 C**

Step 11: Solar photovoltaic panels, 2.5 kWp

Typical installation cost**£3,500 - £5,500****Typical yearly saving****£467****Potential rating after completing steps 1 to 11****81 B**

Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Patrick Laird
Telephone	07588477119 02882247285
Email	patricklaird59@hotmail.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/023368
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	5 September 2024
Date of certificate	13 September 2024
Type of assessment	► RdSAP

Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at mhcdg.digital-services@communities.gov.uk or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

There are no related certificates for this property.
